

ATMOSPHERE PUBLISHING LTD

ENVIRONMENTAL STATEMENT

As a company, we have always tried our best to work sustainably and to reduce, re-use and recycle as much as possible.

For over 30 years we have printed on board from sustainable forests. Printing inks are vegetable based. Cello wrap and bags are recyclable.

We have always re-used materials as much as possible, from cardboard boxes to waste paper shredded for packaging. Materials we can't re-use, we recycle as much as we can including cello wrap round our postcard packs.

All our energy is from renewable sources.

We constantly look at ways to improve our environmental standards be it researching packaging or more ways to reduce and re-use.
